NEW YORK, NY (October 7, 2021) – The 2020 Census “Shape your future. Start Here.” campaign was announced as the Grand Winner of the 2021 ARF (Advertising Research Foundation) David Ogilvy Awards during an award ceremony today. The Awards honor research- and insights-driven advertising and pay tribute to the late David Ogilvy, who believed in the power of research behind effective campaigns.

The 2020 Census “Shape your future. Start Here.” campaign was the amalgamation of research and expertise by multiple multicultural advertising agencies – part of the Census Bureau’s communications contractor, Team Y&R (VMLY&R) – with experience in reaching diverse audiences. The Census Bureau and Team Y&R incorporated more testing than any previous census campaign, resulting in the delivery of a tagline that is understood in multiple languages and cultures, which is critical for achieving a comprehensive and precise census in the US.

In addition to being named Grand Winner, 2020 Census was awarded Gold in the “Social Responsibility Award”, “Data Innovation Award” and “Government, Public Service & Non-Profit” categories.

The ARF also recognized the first-ever SeeHer Award recipient, Microsoft Teams, for its “Nothing Can Stop a Team” campaign. The SeeHer Award, presented by the Association of National Advertisers (ANA) and The Female Quotient, honors realistic representation of all in advertising, including accurate portrayals of women and girls. Microsoft Teams “Nothing Can Stop a Team” was selected for its ability to showcase a mother’s ability to juggle home and work life and presenting new norms for working moms, post-pandemic.

The 2021 award ceremony was hosted by Angela Yee, co-host of The Breakfast Club – the most-listened-to Hip-Hop and R&B morning show in America; and creator of “Angela Yee’s Lip Service” podcast. The event also acted as fundraiser for the ARF Workforce Initiative for Diversity and Excellence (WIDE), which was established to improve the diversity and excellence of the marketing research and data analytics workforce of the future. All proceeds from purchased tickets directly benefited ARF WIDE.
“This year’s ARF David Ogilvy Awards recipients put forth brilliant, well-executed, and innovative campaigns by harnessing the power of data and insights to effectively communicate critical brand messaging,” said Scott McDonald, PhD., president and CEO at the ARF. “I am thoroughly impressed to see these brands push the boundaries of what’s possible in advertising and I can’t wait to see what they do next. Congratulations to all.”
